c. Bulk Storage

On 29 November, the Chief, Commodity Section C (CSC), visited [ ] to meet with Unit II Personnel and become reacquainted with [ ] operations. Discussions centered around the lack of adequate space to accommodate materials requiring bulk storage, specifically, paper stock. CSC research has indicated that stock levels and reordering points are current. However, since paper is ordered with predetermined delivery schedules extending into the next fiscal year, minor adjustments will be necessary to prevent excess accumulation.
